

#GIVING TUESDAY

Too hungry to learn

Students facing food insecurity are more likely to skip classes and suffer academically. According to a survey of a sample of Highline students 49% of students had struggled with hunger in the last 30 days.

To help our students succeed, Highline College has partnered with the Des Moines Area Food Bank to open a food pantry on campus. The pantry will provide fresh fruits and vegetables, sustainable food, reusable food containers, hygienic items and so much more.

And we are so close. The only thing keeping us from opening the pantry is the commercial size refrigerator we are required to have.

The purchase and install of the refrigerator will cost \$5,000. We have a \$2,500 match opportunity, so for every dollar raised we can access another dollar.

Please help us raise the remaining \$2,500 so we can open the pantry.

Click [HERE](#) to make your donation today or call the Highline College Foundation at (206) 592-3774.

On behalf of our students, thank you!
